## 24/7 Service

– On duty for the Chief Engineer

Our service concept is as simple and efficient as our slogan:

*“On duty for the Chief Engineer!”*

*24/7 Service – no call center  
– only direct line to technical expertise!*

Through our wide-ranging experience within various ship applications and through our specialist know-how, we can find solutions to most problems.

By use of our Remote Assistance and Service products we can support any of our supplied automation systems. No need to pay extra for expensive travel and waiting time, our expertise is available onboard anytime it is needed. We have MCS Remote Assistance units available both for sale and hire.

---
