

WATER & WEATHERTIGHT A 6 0 D O O R S S T E E L C O N S T R U C T I O N

With more than 35 years of experience in building marine doors, Libra will be a natural and safe choice for You. In addition to our world famous composite doors, Libra also supply the full range of A60 Steel doors. We supply them in both Water and Weathertight versions with standard dimensions or custom sizes. Water & Weathertight A60 doors are classified by DNV cert. no. MED-B-1948 and with notified body no. 0575.

Main features :

- Complete door with angle bar frame (L)
- Sand blasted and primed surface (steel)
- A60 insulated
- Adjustable hinges
- Stainless steel hinge bolts
- Stainless steel central closing system (toggles)
- 100mm corner radius (in clear opening)
- Standard sizes

On request :

- Painting (std colour Ral 9010)
- Lockcase for Euro (Continental) or TrioVing cylinder
- Padlock bracket
- Door closer
- Microswitch indicator open/close
- Version without A60 insulation when only Watertightness is required.
- Aluminium version when A60 insulation is not required.
- 30mm corner radius in clear opening (only for Weathertight doors)
- Custom sizes

Limitation:

- Max c.o. size: 850x1900mm
- Watertight to max 40KN/m² (4mtr. w.c.)

NB: Pictures showing door with 30mm int. corner radius.
This is option for Weathertight doors.
For Watertight doors, 100mm corner radius is required.
