# TAILOR-MADE CANVAS SOLUTIONS

## COVERS VALUED EQUIPMENT

PLANY is a supplier of tailor-made technical textiles used to protect valuable machinery and equipment. We deliver heavy-duty canvas built to withstand the elements offshore. A wide variety of qualities ensures flexibility and customization. We deliver covers for transport, weather and sealing in all shapes and sizes.

## MOUNTING AND SERVICE

Our service-technicians travel world wide for assembly or service. PLANY offers this service for every delivery if needed, our experience and know-how shortens time of assembly.

## RESEARCH AND DEVELOPMENT(R&D)

Our products are often developed from customers need. We are happy to discuss solutions for your new challenges. After supplying the market for 50 years we know what works and your company gets the best solution.

# WINTERIZATION FOR ARTIC OPERATIONS

Foto: Tom Guldbrandsen

## WINTERIZATION

PLANY is supplier of cover solutions to vessels operating under extreme weather conditions. Where winterization classification is needed, we contribute with well tested and approved solutions.

## CARGO DECK COVERS

PLANY is manufacturer of heavy-duty tarpaulins for ships with class notation where cargo deck cover is required.

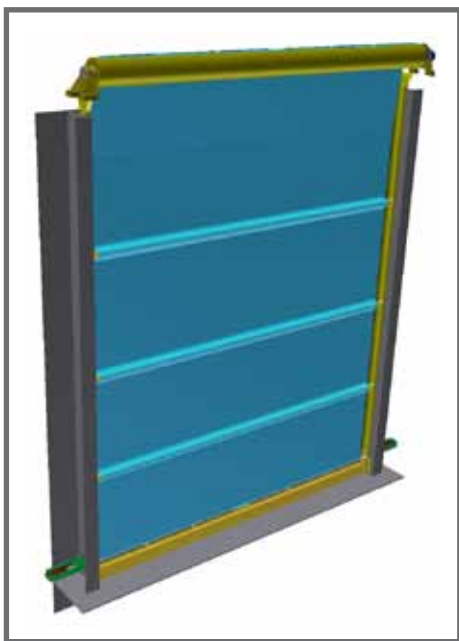

The covers are specially designed for heavy load and durability. The system is hydraulic driven, and customized for each project.

## MOB RECESS

Winterization for MOB recess is an integrated solution where PLANY supplies a complete delivery. This ultimate cover solution is built on a close cooperation with designers and yards. Today we offer both manual- and winch operated systems. We use different techniques to reinforce the tarpaulins so they withstand the rough weather conditions in the North.

# ROLLER DOORS WITH CUSTOMIZED SIZE

## ROLLER DOORS

PLANY delivers roller doors with customized size. This ultimate covering solution is built on close cooperation with designers and yards. Our system is designed for motorized opening and closing.

The heavy-duty canvas is reinforced to withstand the rough elements at sea. Canvas has shown to be very resistant against icing. The door is a very silent solution that makes the working conditions on board easier.
