

COMPRESSORS OFFSHORE

Zone 2
27m³/min

NH50
Zone 2
48m³/min

RENTAL - SALE - SERVICE

Diesel powered, DNV-certified offshore compressors.

**Rig Safe and Zone 2
Capacity 14 to 48 m³/min.
0-25 Bar**

SM 23BL 20	20,0	23/380	7300	5,0/2,1/2,1	DS 11/330
SMF 30BL	8-12	30/500	8000	4,6x2,55x2,6	DSI 11/390
NH 50 14'cont.can be stacked	9 BAR	48/800	10.800	4,25x2,45x2,75	DSI 14

Standard equipment for all offshore compressors:

- DNV 2.7-1 Lifting Point
- *Motor Temperature Sensor
- * Ex rated Gas Alarm
- * Compressor Temperature Sensor
- * Connection to platform shut-down system
- Emergency Stop
- Air Starter
- * Motor Oil Pressure Sensor
- Approved Spark Arrestor in exhaust
- * Compressor Oil Pressure Sensor (High Pressure compressors only)
- * Automatic, self-contained fire extinguisher system and external emergency stop
- Annual re-certification of Shutdown system, and Lifting arrangement by DNV
- Drip tray

In addition to this, fitted as standard equipment for Zone 2 compressors;

Maximum surface temperature 200°C	Explosjon proofed motor
* Level Sensor for Motor Coolant	* Overspeed Sensor
* Exhaust Temperature Sensor	* External manual release for Fire Extinguisher

Points marked * are linked to the shut down system.
