Technical details:

Engine	Scana DSI 14
Compressor	Tamrotor
Capacity	50Nm ³ / min.
Working pressure	10 bar
Lifting frame	DNV 2.7 - 1
Shutdown spesification	NORSOK Z - 015 Zone 2
Volume diesel tank	700 litres
Electrical supply	220/240 V - 50/60 Hz
Connection air start	1/4" connection to internal air receiver (first start only)
Connection-extra cooling capacity (saltwater)	2" firehose connection
Outlet air manifold	2 ea 2" BSPF and 1 ea 3" flanges DIN-80 PN16
Length - Width - Height	4240mm - 2420mm - 2690mm
Weight	10.800 kg

The Compressor is equipped with an extra heat exchanger to allow the unit to work in higher ambient temperatures.
 NH-50 container is equipped with "ISO lock and raised BB socket" for stacking and sea fastening to the deck.
